In 1911 the British Imperial Government moved capital of British India from Calcutta to Delhi. And accordingly construction in that year began. There are at least eight historical Delhi's, each constructed on, or near, the ruins of its predecessor, leaving a modern-day citadel that's dotted with ancient monuments. It offers a glimpse of both ancient and modern day India. The city of Delhi is a blend of two different yet perfectly balanced parts, the Old and the New Delhi. Old Delhi, founded as Shahjahanabad in 1639 as the capital of the great Mughal Empire, and New Delhi, designed by british architect Sir Edwin Lutyens and set-up in 1931 by viceroy of india Lord Irwin.
